

# BIO MASK

BioFriend's revolutionary, patented technology detects and kills dangerous bacteria and viruses on contact AND allows you to breathe normally:

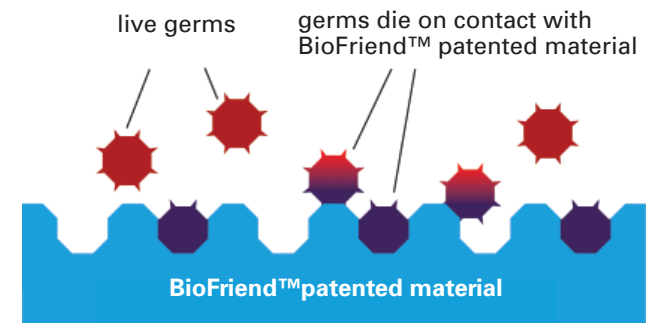

- Filters out and kills 99.9% of germs
- Superior breathability & comfort
- Self-sanitizing for ALL-DAY WEAR
- Reduces cross-contamination of hands and surfaces
- Standard and small size available

**Kills germs including those that cause Influenza A (including bird flu), common colds, measles, pneumonia, SARS and tuberculosis.**

BioFriend™ captures germs by mimicking the sites on human cells to which they normally attach, then, destroys them by disrupting their surfaces (viruses) or cell walls (bacteria).

## ⚠ WARNING

This medical face mask cannot stop the transmission of all germs in the air and does not eliminate the risk of disease or illness. Replace after 8 hours of active wear or earlier if damaged or soiled with blood or bodily fluids. Practice good hygiene. Sanitize hands frequently and refrain from touching nose, mouth or eyes. Do not clean or sterilize for re-use.
